The College of the Asian Pacific Society of Cardiology will be conducting certification courses on Cardiac CT Imaging. The courses will be divided into 3 levels which will satisfy didactic and practical ACC/AHA/ACR certification criteria. The course instructors include an international panel of experts on Cardiac CT Imaging. The course is to be held every quarterly.

Level I Certification

This is a 3 day programme to provide beginners with a basic foundation on Cardiac CT Imaging. This certification includes processing/interpreting studies. The course is a foundation course.

Level II Certification

5 Day training programme provided which will enable participants to become independent and confident operators of Cardiac CT Imaging. A total of 150 studies will be included as part of the training.

Level III Certification

Aimed at accrediting participants to satisfy the criteria as trainers of Cardiac CT Imaging. The competent trainers will be recognised by CAPSC as accredited trainers of the training centres. Facilities that have Level III trainers can apply for accreditation as CAPSC recognised Cardiac CT Imaging Centres.

Venue: A state of the art facility in Singapore with 30000sq feet of wireless lecture rooms/ auditoriums and CT scanners ranging from 16slice to 64slice with the latest comprehensive software available.

Registration: Interested applicants can email the secretariat at secretariat@caspscario.org. As the number of training places will be limited, applications will be accepted on a first come first serve basis. The first course will commence in December 2008. The course is open to cardiologists, radiologists and physicians who have an interest in the field of Imaging. Further details will be made available shortly.

Course fees:

- **Level 1 Certification – CAPSC fellows:** USD750
Non-Fellows: USD1500
- **Level 2 Certification - CAPSC Fellows:** USD1200*
Non-Fellows: USD2400

* For level 2 certification, USD1200 is a special introductory course price for Fellows only. For comparable courses in the USA, the course fees for Level 1 training can amount to USD3000 and the course fees for Level II training can amount to USD7000.
